Like in many modern witchcraft practices, the celebration of magic and ritual with infused herbs extends deep into human history.

When it comes to witchcraft cocktails, the magical association of herbs, fruits, and other elements takes center stage in creating a dynamic and powerful beverage.

- WitchCraft Cocktails by Julia Halina Hadas

At Apothekeeria, we find balance in the fascinating properties of different spirits to combine with flavors, herbs, and their science. While being mindful of our sustainability goals.

Our WITCH PLEASE spring menu is inspired & dedicated to delving deeper into the relationship between witchcraft, healing stones, and cocktails.

We open doors with our spring menu in good vibes, modern libation and an enchanted realm.
